@ [adrian.galbenus@gmail.com](mailto:adrian.galbenus@gmail.com)

📍 Bucharest

## EXPERIENCE

### DevOps Engineer

#### Axway

📅 11/2017 - Ongoing

Axway Software is a publicly-held information technology company that provides software tools for enterprise software,

- Maintain and improve the existing CI/CD infrastructure
- Manage the product releases
- Help with the AWS migration
- Maintain and improve the product installer (Install4j)

### DevOps/Build & Release Engineer

#### Luxoft (Kaazing)

📅 08/2016 - 11/2017 📍 Bucharest

I accepted the opportunity/challenge to design and rebuild the entire CI/CD infrastructure for Kaazing, using the newest technologies available (most of them are listed in my tech skills list)

### Junior QA Automation Engineer

#### Luxoft (Kaazing)

📅 06/2016 - 08/2016 📍 Bucharest

Part of the QA automation team for the Kaazing WebSocket Gateway, a platform for building client/server apps with low latency & full-duplex communication

- Automate, update and maintain existing test cases and infrastructure
- Implement CI processes using Jenkins, Docker and Travis CI

### Military (technical support for video surveillance systems)

#### Workplace confidential under contract agreement

📅 2012 - 2016 📍 Bucharest

- Maintain and improve the network infrastructure
- Maintain, install and configure specific equipment and tools

## EDUCATION

### Bachelor of Mathematics and Informatics

#### University of Bucharest

📅 2012 - 2015
